SOFT PULVERIZED

Florida Phosphate,

The Standard Phosphate Mining and Chemical Company of Alexandria, Va., is now selling their NON-ACID PHOSPHATE.

This New Natural Fertilizer contains 21 per cent. of Phosphoric Acid, with 5 per cent. of this amount available on present crops, leaving as a PERMANENT IMPROVER of the soil 14 per cent. to be drawn on by succeeding crops.

It is especially recommended for wheat and grass, and will bring equal results with any phosphate now sold.

The price for this new fertilizer is in reach of every farmer. Write for prices and circulars.

CONGRESSMAN HARRIS.—Hon. William A. Harris, the recently-elected congressman-at-large from Kansas on the people's party ticket, is a native of Luray and received his education at the Virginia Military Institute, at Lexington. His father, Hon. William A. Harris, sr., was the first clerk of Page county, then represented the Tenth Legion district in the Congress of the United States, was the representative of this government at Buenos Ayres during the administration of President Polk, and later still editor of the Washington Union. His mother, prior to her marriage, was Miss Sydney S. Murray, of Loudoun county.

The present congressman-elect was first a drillmaster of Confederate recruits at the outbreak of the war, and later he was a captain on the staff of General Wilcox.

Congressman Harris is a most pleasant and affable gentleman, and has been very successful financially in his adopted State, and promises to be politically. He was a candidate for the senatorship lately held by ex-Senator John J. Ingalls and received quite a respectable vote in the Kansas Legislature. Mr. Harris' antecedents are all democratic, and it is predicted that his native State will have no occasion to regret his election to Congress.

THE NEW COMET.—A letter to the New York Herald from Professor C. A. Young, of Princeton, gives a very interesting account of the new comet now speeding "head on" directly toward the earth. Its diameter is from twenty-five to thirty thousand miles, with faint traces of quite an extensive tail. But it gives no sign of any internal activity. Professor Young says that the brightness of the comet seems to have decreased since it was observed a week ago, and it will not be surprising if it should become invisible when it approaches nearest the earth, at the close of this week. The spectrum of the comet is pronounced by Professor Young as continuous, which may be due to reflected sunlight, though it is too faint to show the Fraunhofer lines. Ordinarily such spectra are held to indicate the presence of some gaseous hydrocarbon, which may possibly be made to shine by collisions between the solid particles in the gaseous envelope. But the comet is evidently composed of rocky material, which has no luminosity of itself except when brought under the power of the sun. Fortunately for timid folks, as Professor Young says, there is no danger of any serious damage to the earth, even if the comet should strike it squarely, which is impossible.

SILVER STATUE.—Miss Nora Houser has been selected to be the model for Montana's silver statue at the World's Fair. When it was announced some time ago that Miss Ada Rehan, of New York, had been chosen to pose for the statue, a storm of protest went up from the Montana people and the press. The women of Silver Bow county, in particular, were indignant, declaring that plenty of native models could be obtained equal in every respect to the person picked out in the East. Pictures of Miss Rehan in the costume of the model were in demand, and many ambitious maids unveiled their charms in the seclusion of the boudoir—for feminine comparison with the famous stage beauty of Gotham. Miss Nora Houser has finally been selected from among the numerous aspirants, as the native Montana girl to be the model for the silver statue. Miss Houser was born in Montana, and has lived in Deer Lodge, Butte and Helena, though her home is now in Oregon. She is strikingly beautiful of face and figure, and has a queenly carriage. Montana will match her against the world. But the World's Fair officers have no positive information that she will serve as a model.

Now Try This.

It will cost you nothing, and will surely do you good, if you have a Cough, Cold, or any trouble with the Throat, Chest or Lungs. MORE NEW GOODS

AT

Miller's.

We called your attention some time ago to a new line of CHAMBER SETS we had received and which we invited you to inspect. That they fully realized our expectations is verified by the fact that they sold so fast; that not until this week could we get duplicate orders filled at the factory. We inform you now that we have just received a NEW LOT, containing the best of the last patterns offered, besides another new shape and decoration never offered before. The prices are way down, and if you need anything in this line you should call early, as they will undoubtedly sell on sight.

We also sold our entire line of BANQUET LAMPS, but have received a larger lot this time in Onyx, Brass, Gold and Silver, Brass and Copper Relief. We have exclusive control of one of the largest factory's productions in this line, and guarantee you prices on them.

Have you seen our \$3 BANQUET LAMP? A complete line of SILK SHADES for Piano and Banquet Lamps.

Examine our \$2 all-Silk Shades.

Among other goods we call attention to new arrivals of HAVILAND TEA SETS, HAVILAND and CARLSBAD DINNERS SETS, Cracker Jars, Fancy Cups and Saucers, Biscuit Jars and Candelabra.

That you have appreciated our endeavors to sell you the newest goods on the market at the lowest figures is verified by the fact that for some days we were entirely out of fine Tea Sets, and that our entire stock of Brass Goods in Afternoon Tea Stands and Chafing Dishes was exhausted, though orders were at the factory as soon as we saw how fast they were going off. We are constantly adding to our stock, and will continue to add to the same by the newest productions. No trouble to show goods. Polite attention shown and prompt delivery assured purchasers. Store open at night.
